

# Can't Fight Love

House of Lords

'Cause enough ain't enough  
Once you start  
No, no, no  
You can't fight love

It's never easy  
And it's never nice  
When the truth of the matter  
Is a little white lie

It's a shock to the system  
It's a kick in the heart  
But if we tried to stop  
We wouldn't know where to start

Baby, a kiss ain't just a kiss  
When it feels like this  
Come a little closer

(Somewhere)  
In the deep of the night  
(Baby)  
We fit a little to tight 'cause

Enough ain't enough  
Once you start  
You can never ever stop  
Takes you high, gets you up  
Face it baby  
No, no, no  
You can't fight love

It can shatter the windows  
It can knock down the doors  
Peel off the plaster  
Like never before

I swore I wouldn't fall  
Baby, what can I say  
Wild, wild horses  
Couldn't drag me away

(This fire)  
Will never leave us alone  
(Our flesh)  
Has a mind of it's own

Enough ain't enough  
Once you start  
You can never ever stop  
Takes you high, gets you up  
Face it baby  
No, no, no  
You can't fight love  
(A kiss ain't just a kiss)

(Tonight)

In the name of desire  
Gonna break our own rules  
Gonna prove ourselves liars  
(We tried)  
Yeah, we tried to be tough  
C'mon pretty baby just give it up

Enough ain't enough  
Once you start  
You can never ever stop  
Takes you high, gets you up  
Face it baby  
No, no, no  
You can't fight love

Enough ain't enough  
Once you start  
You can never ever stop  
Takes you high, gets you up  
Face it baby  
No, no, no  
You can't fight love
