

Down, Down, Down

House of Lords

Storm in the sky
Tears in my eyes
Thunder on the radio
Danger in the night
Moon burnin' high
Something's getting ready to blow

You're so young
Just a child, baby
I know he's been hurting you
Got a gun, goin' wild baby
I'll do what I have to do
(I swear by all that's sacred)

He goin' down, down, down
Ain't gonn never give up, never give up
Until he's down, down, down
Goin' in the name of love

Cold summer sweat
Fire in my head
Lord, I'm goin' over the edge
Ooh, I'll do my time inside
But he'll do his time in hell

It's alright
It's like heaven
To finally end the pain
What we had
Is forever
No, they can't take that away
(I swear by all that's sacred)

He goin' down, down, down
Ain't gonn never give up, never give up
Until he's down, down, down
Goin' in the name of love

There's an angel watching over me tonight
Baby this I know
And if there's any justice in the world
Heaven will save my soul

You're so young
Just a child, baby
I know how you bleed

(Down, down, down, oh)
It's gonna be over tonight
Tonight
(Down, down, down)
Never give up, I'm never give up
Until he's down, down, down
Goin' in the name of love

Down, down, down
Never give up

Until he's down, down, down
Goin' in the name of love

(Down, down, down)
He's goin' down, baby
Until he's down, down, down
Goin' in the name of love
