

Hologram

House of Lords

First you're there then you're nowhere
You say you care but you disappear
Like a ghost when I'm alone
You're somewhere in the air

One touch is not enough
When I can't get through to you
You look real but you don't feel
Like I hunger for you too

Hologram, hologram
Who you gonna be tonight
Hologram
Are you hiding in the light

Oh, everything I saw in you
Oh, now baby, I see true
Who you gonna turn to tonight

You fool the eye, you make 'em cry
You tell no lies but it's all an ilusion
You make me feel the feeling's real
Like I am touching you

But one touch is not enough
When the movie's starring you
One kiss and I start missing
The cinematic views

Hologram, hologram
Who you gonna be tonight
Hologram
Are you hiding in the light

Oh, everything I saw in you
Oh, now baby, I see true
Who you gonna turn to tonight

One touch is not enough
When I can't get through to you
You look real but you don't feel
Like I hunger for you too

Hologram, hologram
Who you gonna be tonight

Hologram, hologram
Who you gonna be tonight
Hologram
Are you hiding in the light
