## **Hologram**

## **House of Lords**

First you're there then you're nowhere You say you care but you disappear Like a ghost when I'm alone You're somewhere in the air

One touch is not enough
When I can't get through to you
You look real but you don't feel
Like I hunger for you too

Hologram, hologram Who you gonna be tonight Hologram Are you hiding in the light

Oh, everything I saw in you Oh, now baby, I see true Who you gonna turn to tonight

You fool the eye, you make 'em cry You tell no lies but it's all an ilusion You make me feel the feeling's real Like I am touching you

But one touch is not enough When the movie's starring you One kiss and I start missing The cinematic views

Hologram, hologram
Who you gonna be tonight
Hologram
Are you hiding in the light

Oh, everything I saw in you Oh, now baby, I see true Who you gonna turn to tonight

One touch is not enough
When I can't get through to you
You look real but you don't feel
Like I hunger for you too

Hologram, hologram Who you gonna be tonight

Hologram, hologram
Who you gonna be tonight
Hologram
Are you hiding in the light
