

I Need To Fly

House of Lords

Oh, whoa
I never knew anyone but you
I never touched anyone but you
I never let anyone but you in my life
I never thought anyone so young
Could ever accept all I've done
I never believed anyone but you
I don't know when the feeling shifted
Girl, you lifted me so high
There's something really happening inside

I need to fly, on the wings of my soul
Away from home, I gotta make it alone
I need to fly, on my own
And it chills me to the bone

I will always love you

I can't imagine anyone but you
I can't think of anything but you
When I hear your voice
You know it's killing me, I tell you
I know when I turn away
We're never gone feel the same
I never believed in love's addictions
'Til I watched you walk away
There were no words spoken, only broken dreams

'Cause I need to fly, on the wings of my soul
Away from home, I gotta make it alone
I need to fly, on my own
And it chills me to the bone

I never believed in love's addictions
'Til I watched you walk away
There were no words spoken, only broken dreams

'Cause I need to fly, on the wings of my soul
Away from home, I gotta make it alone
I need to fly, on my own, baby
I need to fly, on the wings of my soul
Away from home, I gotta make it alone
I need to fly, on my own, and it kills me
