

O Father

House of Lords

Father, what have you done
Your children are blowing themselves
The kingdom come
Kingdom come

Father, of all time and space
Why do you raise us up
Just to fall from grace
Fall from grace

Take a look around you
Heaven can't be found
And you can't hear the sound
Of a heartbeat in the heart of the city

If you've got a plan
If someone's in command
The c'mon raise you hand
And show us some love and pity
I pray

O Father, our father
Where is your guiding light
O Father, our father
God help us through the night

I am just a man
Walkin' these mean streets
Tryin' to find my way
Find my way

I'm doin' what I can
Tryin' to made a stand
Tryin' the understand
Fighting just to find my faith
I pray

O Father, our father
Where is your guiding light
O Father, our father
God help us through the night

O Father
I need you now

We raise our hands to heaven
We raise our voice in prayer
We fight for something to believe in
Let there be someone there

Take a look around
Heaven can't be found
O father raise your hand

O Father, our father
Where is your guiding light
O Father, our father

God help us through the night

O Father, our Father

O Father

I need you now

O Father, our father

Where is your guiding light

O Father, our father

Oh, just what have you done

O Father, our Father

O Father

I need you now

O Father, our father

Where is your guiding light, oh

O Father, our father

O Father, Father, Father

O Father, our father

O Father, our father
