

# One Foot In The Dark

House of Lords

There's somethin' on my mind  
I got a hungry disposition  
I gotta the fever inside, girl  
You better jockey for position

Oh, all around the world  
I been on a rock'n'roll mission  
Girl, I got my fingers on fire  
Runnin' up and down my condition

It happens over and over  
Gettin' closer and closer

The lights keeps shining on me  
The past is right behind me  
I know that you'll remind me  
To step aside and keep  
One foot in the dark  
One foot in the dark

There's someone always tuggin'  
On the wings of my heart  
I gotta make it to the summit  
Girl, I gotta climb so far

I'm runnin' faster and faster  
On the edge of disaster

The light keeps shinning on me  
The past is right behind me  
I know that you'll remind me  
Oh, oh-oh-oh-oh

The light keeps shining on me  
The past is right behind me  
I know that you'll remind me  
To step aside and keep  
One foot in the dark

It happens over and over  
Getting closer and closer, oh

The light keeps shinning on me  
The past is right behind me  
I know that you'll remind me  
Oh, oh-oh-oh-oh

The light keeps shining on me  
The past is right behind me  
I know that you'll remind me  
To step aside and keep  
One foot in the dark

One foot in the dark  
One foot in the dark  
One foot in the dark
