

# Black Jesus

House of Pain

They call me White Devil, Black Jesus  
Heaven closes, hell freezes  
Ego's trippin', scripts keep flippin'  
Bloods keep bloodin', crips keep crippin'

Time keeps slippin' and I keep fallin'  
An' I can't see but I hear them callin', ballers ballin'  
Players playin', haters fightin', righteous prayin'  
Don't forget Manhattan keep makin', Brooklyn keep takin'  
Shook ones keep shakin', no time for fakin'  
Know what I mean, I ain't choppin' no bars just risin' like cream  
An' if you diggin' the scene, you feelin' the vibe  
Throw your hands in the air, scream are you alive

Singin' na, na, na, na, na, na  
Singin' na, na, na, na, na, na  
Singin' na, na, na, na, na, na  
Singin' na, na, na, na, na, na

They call me Black Jesus, White Moses  
Heaven freezes, hell closes  
B-Boy posin', punk rock chicks  
Kids are alright but I need my fix

If you diggin' the mix, feelin' the drugs, if you keepin' it real  
If you livin' like thugs, I spit kisses and hugs like forty five slugs  
Come back on the run and kiss my love gun  
Got a look that'll kill, voice that'll carry  
Half a dozen women that think I wanna marry  
I got trouble on my mind, I'm refusin' to lose  
But still I got a find someone to abuse, I'm gonna run spread the news  
Help say the word, jump the fuck back and just act like you heard

They call me white Devil, Black Jesus  
Heaven closes, hell freezes  
Black Jesus, White Moses  
Heaven freezes, hell closes

Singin' na, na, na, na, na, na  
Singin' na, na, na, na, na, na  
Singin' na, na, na, na, na, na  
Singin' na, na, na, na, na, na  
Singin' na, na, na, na, na, na

They call me white sinner, black martyr  
Live wire, fire starter  
Jungle brother, red neck cracker  
Freak of nature, new world slacker

Sex junkie lookin' for a dealer  
You can play the leper girl and I can play the healer  
Shit is only gettin' realer, baby, haven't you heard  
That the bird, bird, bird, yes, the bird is the word  
It go one for the trouble, two for the times  
And three for my homies and four for the dimes  
Singin' lemons to the limes to the break of dawn  
Excuse me every six minutes, everlast you're on

And it go on and on like a rolling stone  
Baby, anywhere I lay my hat is my home

They call me White Devil, Black Jesus  
Heaven closes, hell freezes  
Black Jesus, White Moses  
Heaven freezes, hell closes

Singin' na, na, na, na, na, na  
Singin' na, na, na, na, na, na  
Singin' na, na, na, na, na, na  
...
