

No time for dreaming  
My husband isn't here  
This place, this place is what  
I was looking for  
We go for a walk in the park  
Before it's getting dark  
We've got everything but I want more, more, more, more

Everybody wants to get our heads  
Between high and the low  
C'est la vie de Château  
Everybody wants to get our heads  
Between high and the low  
C'est la vie de Château

No time for dreaming  
Once I was a queen  
Forever it is a long, long time  
We don't talk but it's fine  
We go for a walk in the park  
This place is falling apart  
He doesn't love me, no anymore more, more, more

Everybody wants to get our heads  
Between high and the low  
C'est la vie de Château  
Everybody wants to get our heads  
Between high and the low  
C'est la vie de Château

Everybody wants to get our heads  
Between high and the low  
C'est la vie de Château  
Everybody wants to get our heads  
Between high and the low  
C'est la vie de Château
