## We Fade Away

## **How to Destroy Angels**

```
In disarray
We lose our way
We fade away
We fade away
We decimate
Eradicate
We fade away
We fade away
We eat your hate
Reciprocate
We fade away
We fade away
We hesitate
We complicate
We fade away
We fade away
We fade away
We separate
We isolate
We fade away
We fade away
We fade away
The pills we take
A shade of grey
We fade away
We fade away
We fade away
We fade away
Please I need a little room to breathe
Breathe, breathe, breathe
Breathe, breathe, breathe
Breathe, breathe, breathe
Breathe, breathe, breathe
Am I just talking to myself?
Am I just talking to myself?
Am I just talking to myself? Am I just talking to myself?
Am I just talking to myself? Am I just talking to myself?
Am I just talking to myself? Am I just talking to myself?
Am I just talking to myself? Am I just talking to myself?
We take the bait
We cannot wait
We fade away
We fade away
You ask for great
Exaggerate
We fade away
We fade away
Obliterate
```

Intoxicate

We fade away

We fade away

He used to pray

We can't obey

We fade away

We fade away

We see the fate

Has lost its way

We fade away

We fade away

We had to take

We lost its way

We fade away

We fade away

We have to say

We lost our way

We fade away

We fade away

We have to say

We lost our way

We fade away

We fade away

Please I need a little room to breathe Please I need a little room to breathe Please I need a little room to breathe Breathe
