

## Body Fat

### How to Dress Well

Had a song  
Had a name  
And it was soft as owl feathers

You sang along  
You knew the changes  
It was like we wrote it together

All along  
I'd say your name and it was like a  
Love letter

I was so lost -  
I'd say your name and it was  
So much better

No matter all your alchemy  
The past will call you back:  
There's still so much pain and anger  
In your body fat

I was wrong  
I was late but I felt actually  
Unfettered

Light was gone  
Made me wait, but it was  
All for the better

All alone  
I'd say your name and it was  
Like a love letter

I was so lost  
I'd say your name and it was  
So much better

No matter all your alchemy  
The past will call you back:  
There's still so much pain and anger  
In your body fat
