

Nothing

How to Dress Well

You caused my shape
I received your gift
Were you happy then?
Are you happy now?

And it's all you ever wanted
To remember only lies –
Now you're hollow inside

Now it's all or fucking nothing
Like you never had to hurt anyone!
I could see you there:
Like the child wishing the ambulance
Was for them

You cause my shame
I received your gift
Were you happy then?
Are you happy now?

Stand alone in the dark
Away, apart from everything
You've wanted death
To dissolve your aching flesh

And it's all you ever wanted
To remember only lies –
Now you're hollow inside

Now it's all or fucking nothing
Like you never had to hurt anyone!
I could see you there:
Like the child wishing the ambulance
Now it's all or fucking nothing
Like you never had to hurt anyone!
I could see you there:
Like the child wishing the ambulance
Was for them
