

Suicide Dream 1

How to Dress Well

I was sleeping in the back of a car that we took, that we took
And I was wondering how I could see my own face
It said in the world, in the side, I'm on my way back

And I was sleeping in the back of a car that we took, that we took

And now I'm just missing you

Said I was wondering how can the world we know be lost
How many roads left to go on the road?
I mean, my god, why are we both so alone, and I was lost
In my little suicide dream

And now I think about you daily, daily, daily
Talked to your sister, that girl is crazy, she's crazy
And man, I can't believe you got a baby, a baby
But that's a trip that life goes on and on
In my little suicide dream
