

## Back To Me

Howie D

No matter how many times I try to say it  
looks like she made up her mind that she can save this  
so now she keeps coming back to me (back to me... back..)  
and I can't help that I don't feel the same  
girl I'm sorry but

you're only making this harder for you  
coz loving is something that I just can't do  
girl you had a chance but now it's time to move on  
and now we gotta go our separate ways

it doesn't matter what you do or you say  
coz nothing between you and I is gonna change  
but you keep coming back to the same one place  
girl it feels like you are my boomerang

she's coming back to me, back to me  
coming back to me, back to me  
coming back to me, back to me  
here she comes

girl I keep walking away  
and still you come back  
with every step that I take  
you take me one back  
but this is killing me  
why can't you just let me go and move on  
girl I'm sorry but

you're only making this harder for you  
coz loving is something that I just can't do  
girl you had a chance but now it's time to move on  
and now we gotta go our separate ways girl

it doesn't matter what you do or you say  
coz nothing between you and I is gonna change  
but you keep coming back to the same one place  
girl it feels like you are my boomerang

she's coming back to me, back to me  
coming back to me, back to me  
coming back to me, back to me  
here she comes

no matter where I wanna go  
(where I want to go)  
you're always pulling me back where we started  
it's time to pick up and go (go go go)  
coz this is your final turn

it doesn't matter what you do or you say  
coz nothing between you and I is gonna change  
but you keep coming back to the same one place  
girl it feels like you are my boomerang

(it doesn't matter....)

it doesn't matter what you do or you say  
coz nothing between you and I is gonna change  
but you keep coming back to the same one place  
girl it feels like you are my boomerang

she's coming back to me, back to me  
coming back to me, back to me  
coming back to me, back to me  
here she comes
