When the morning came I was up before first light  
And your bed was made, must have cut out some time last night  
and My heartbeat started pounding out a rhythm in my brain  
A voice from deep inside said, you got to be insane,  
Everyone knows how this old story goes,  
So I got in that taxi and drank my conscience away

If you're gonna be there.. be there  
If you're gonna stay.. stay tonight  
Start livin', out with the old.. I'm on the up..  
Must be the good life..

I went to your friends house and begged you to open the door  
With your hands on your hips you spoke while I sat down on that floor  
two dishes in the kitchen sink, the way you treat me when you drink  
You don't look so superior when you give your opinion  
You think I don't know how you act on your own and  
just who all these names on your cellphone anyway

If you're gonna be there.. be there  
If you're gonna stay.. stay tonight  
Start livin', out with the old.. I'm on the up..  
Must be the good life..

--Instrumental--

you're a cool breeze in the setting sun,  
New Year's, the 4th.. all wrapped into one,  
you make me want to be someone that you could look up to

If you're gonna be there.. be there  
If you're gonna stay.. stay tonight  
Start livin' out with the old.. I'm on the up..  
Must be the good life..

Come on get love  
Come on and try (get treated)  
Come on now, what are you waiting for?  
(mmm, gonna feel it)

Come on get love,  
Come on and try (get treated.. beat it)  
Come on now, what are you waiting for?

Come on get love  
Come on and try  
Come on now, what are you waiting for?  
(gonna feel it)

Come on get love  
Come on and try  
Come on now, what are you waiting for?

when the morning came I was up before first light..
