

Disco

Howie Day

Every night is disco night
With you I'm living every moment for you
Seeing things in a different way
Of my god I'm thankful that you're leaving

Is there something we can do, this afternoon
Is there nothing left to say
Oh your love, cautions you
You are something new
Afternoon

I'll make it up to somehow
I'm laughing and you're dancing like my mother
I'll teach you to go off on me
Shake, shake from the horror
Mirror naked feeling hot
Your radio is not store bought but stolen
Another night is going out
It's Saturday and now you've got the fever

Is there something we can do, this afternoon
Is there nothing left to say
Oh your love, cautions you
You are something new
Afternoon

Is there something we can do, this afternoon
Is there nothing left to say
Oh your love, warning you
And you are so beautiful
You'll just have to do
Is there nothing left to say
