

# Weightless

Howie Day

I was alone, so not afraid  
I was staying up with you way too late  
I thought someone like you  
Could come around n make my faults  
Seem like they were none at all  
Come on somebody help me out  
I'm underwater drowned in doubt

But it feels just like we're weightless  
Weightless when we're together  
Isn't it time to face it, what we already know?  
Seems just like we fake it  
Pretend it isn't happening  
Pretend that it'll go away  
Oh but what do I know?

It was all mixed up, ahead of the curve  
When you were lying to the world  
See I want to lie there too  
Feeling down n all around  
I see your back in every town  
You'll be the one to hold me down  
Tell me, is it too late now?

Cuz it feels just like we're weightless  
Weightless when we're together  
Isn't it time to face it, what we already know?  
Seems just like we fake it  
Pretend it isn't happening  
Pretend that it'll go away  
Oh but what do I know?

I want to be alive like you  
Be so easy like you  
I want to love like you do  
Oh wonderous one

It feels just like we're weightless  
Weightless when we're together  
Isn't it time to face it, what we already know?  
Seems just like we fake it  
Pretend it isn't happening  
Pretend that it'll go away

It feels just like we're weightless  
Weightless when we're together  
Isn't it time to face it, what we already know?  
Feels just like we're turning  
Turning ourselves in circles  
Pretend that we can find a way  
Oh but what do I know?

But what do I know?  
Oh.. but what do I know?
