I was alone, so not afraid
I was staying up with you way too late
I thought someone like you
Could come around n make my faults
Seem like they were none at all
Come on somebody help me out
I'm underwater drowned in doubt

But it feels just like we're weightless
Weightless when we're together
Isn't it time to face it, what we already know?
Seems just like we fake it
Pretend it isn't happening
Pretend that it'll go away
Oh but what do I know?

It was all mixed up, ahead of the curve When you were lying to the world See I want to lie there too Feeling down n all around I see your back in every town You'll be the one to hold me down Tell me, is it too late now?

Cuz it feels just like we're weightless
Weightless when we're together
Isn't it time to face it, what we already know?
Seems just like we fake it
Pretend it isn't happening
Pretend that it'll go away
Oh but what do I know?

I want to be alive like you Be so easy like you I want to love like you do Oh wonderous one

It feels just like we're weightless
Weightless when we're together
Isn't it time to face it, what we already know?
Seems just like we fake it
Pretend it isn't happening
Pretend that it'll go away

It feels just like we're weightless
Weightless when we're together
Isn't it time to face it, what we already know?
Feels just like we're turning
Turning ourselves in circles
Pretend that we can find a way
Oh but what do I know?

But what do I know?
Oh.. but what do I know?
