

Trouble Town

Hudson Taylor

Troubles find their way home
What goes up must come down
Thoughts will always be with me
All the way to troubled town

Where I sit and watch the flowers grow
When I have nowhere else to go

Words can show their face here
And lie down next to me
My thoughts will always be here
All the way to troubled street

Where I people watch and write it down
Where I'm the only man in town
Where I sit and watch those flowers grow
When I have nowhere else to go

I'll find my way
I'll find my calling
My way to be proud
In Trouble Town (4x)

Where I people watch and write it down
Where I'm the only man in town
Where I sit and watch those flowers grow
When I have nowhere else to go
