

# Watchtower

Hudson Taylor

Let it all come out  
Find another way to say, "I got what I deserve"  
Taught me how to think my way out of the things I've earned  
Watchtower's looking over me, like I'm a thief  
Here until the death of me

Face your battles now  
Always try and bring it to the enemy at bay  
Wonder why we always spend the money we have made  
Watchtower's looking over me, like I'm a thief  
This will be the death of me

So, run for the hills, run from the tide  
And all this time you'll find,  
you're running for your life  
Run for the hills, run from the tide  
And all this time you'll find,  
you're running for your life

Tell 'em like it is  
Show 'em with authority, no blinking in the eye  
Make 'em find you wearing your obligatory disguise  
Someone's looking over you, watching me  
There's no escape for both of you

So, run for the hills, run from the tide  
And all this time you'll find,  
you're running for your life  
Run for the hills, run from the tide  
And all this time you'll find,  
you're running for your life

Catch me if you can,  
I've seen the tables started turning  
Looking through the book,  
I've seen the pages slowly burning  
Yeah, I've gone too far, too far from the start

So, run for the hills, run from the tide  
And all this time you'll find,  
you're running for your life  
Run for the hills, run from the tide  
And all this time you'll find,  
you're running for your life  
Run for the hills, run from the tide  
And all this time you'll find, you're  
Run for the hills, run from the tide  
And all this time you'll find, you're  
Run for the hills, run from the tide  
And all this time you'll find,  
you're running for your life

Your love will be the death of me  
Well, I'm running for my life  
Your love will be the death of me  
Well, I'm running for my life  
Your love will be the death of me

Well, I'm running for my life  
Your love will be the death of me  
Well, I'm running for my life.
