

# Wildfires

Hudson Taylor

When you face 28 thousand doorways,  
or you laugh hoping for an escape,  
when you day is 24 hours of heartache,  
well show me the way you pray  
You know that it's not your fate, not today

When the wildfires leave you no way out,  
I'll scream up to the sky with you  
When the wildfires leave you no way out,  
my door is always open to you

Another day with millions of different people,  
starting to lose their heads,  
forgetting to be themselves, what else  
Do you know you're someone I wanna be with  
You're someone that's just themselves  
You know you can cry for help, I'll be waiting

When the wildfires leave you no way out,  
I'll scream up to the sky with you  
When the wildfires leave you no way out,  
my door is always open to you

In the wildfire (4x)

And if you feel that you're unraveling,  
and if there's nothing you can do,  
and if you feel it overlapping  
When the time comes I'll say to you (2x)

When the wildfires leave you no way out,  
I'll scream up to the sky with you  
When the wildfires leave you no way out,  
my door is always open to you

In the wildfire (4x)
