

Blah Blah Blah

Hüsker Dü

Got something to say
like something to me
well just go ahead and spit it out
It's all the same, you see
What's that, it doesn't make sense
Are you talking in tongues
or is your brain out of gear
I can hear it rattle in your head
I can see you lips move
Blah Blah Blah
but all I hear is
Got something to say
Like something to me
Well just go ahead and spit it out
It's all the same, you see
It's coming out better but it doesn't make sense
Is that a head on your shoulders
or something you use for ornamentation
