

Find Me

Hüsker Dü

Find me a country
Far from my home
Sent me on an airline
And they told me where I'm going
Well I know they tried to get me here
Just to see if I would fly
So find me

So I found this civilization
That they told me all about
There was boats inside of waterfalls
With people jumping out
Of the ocean that kept flaming up
But I know it's all a lie
So find me

There's a thousand million voices
They're screaming in my eyes
Preachers in the forest
Sirens in the sky
Well I walked around and I cried a lot
Thought that I would die
Find me
