

Flip Your Wig

Hüsker Dü

Welcome to this world that we live in
Normal people going for a spin
And we don't realize
That it changes all our lives

Every day somebody's asking questions
Someone wants to know if I know
All the answers, or am I just guessing?
Guess we'll never really know

Sunday section gave us a mention
Grandma's freaking out over the attention
Now my friends abound
They're coming back around

Long distance on the other end
Says I need them for a friend
No matter what I choose
I'm the one they want to use
