

Powerline

Hüsker Dü

What's this humming in my head
Was it something that someone said
It's connecting us with them
Electric wires turned on again

It aggravates, and it pacifies
Hear the power in the lines

Strung high on every pole
How can this power be bought and sold?
Trying to harness solar rays
Making minutes seem like days

It captivates, and it hypnotizes
Hear the power in the lines
Powerline
