

## Private Plane

Hüsker Dü

You ask how far the farthest star is  
To go by bus or to go by car is  
Way too far, you couldn't say  
You won't get there anyway

He says it takes a private plane  
But you could never get back to your feet again  
Unless you break the ball and chain  
He says "Now, it's a private plane"

With all these places in your mind  
There's no reason you have to find  
Your private plane  
Don't play that game
