

## She Floated Away

Hüsker Dü

With her grandmother's face and her father's brown eyes  
Her own force of will to her mother's surprise  
A whole look about her that says that she may  
She lifted her arms and she floated away

She floated away, she floated away  
She lifted her arms and she floated away  
She don't give a damn what the other girls say  
She lifted her arms and she floated away

"Let me talk to you mother," she tried to confess  
"Go ahead honey and wear the white dress  
Don't let traditions go stand in your way"  
She lifted her arms and she floated away

Well a man has two reasons for things that he does  
The first one is pride and the second one is love  
All understandings must come by this way  
She lifted her arms and she floated away
