Don't Fight It

Huey Lewis & The News

Неу

There you sit All by yourself And everybody's dancin' They can't help themselves, come on

The groove is much too strong You can't hold out longer, honey So get up, don't fight it You got to feel it, feel it

You better get on up And get that groove, come on You know what, baby? I like the way you move

Yeah, you do the thing Like you ought to be, alright So don't fight it, baby You got to feel it, feel it

The way you jerk The way you do The Twine You're too much, baby I wanna make you mine, come on

Yeah, after the dance I wanna take you home, alright So don't fight it Baby, you've got to feel it, feel it Don't fight it Baby, you got to feel it, feel it

Get on up Baby, you got to feel it, feel it Don't fight it Baby, you got to feel it, feel it

Get on up Baby, you got to feel it, feel it
