

# My Other Woman

Huey Lewis & The News

I love my wife - I love my honey  
I gave them both everything I had  
Like lots of love - and lots of money  
Can a little devotion be too much to ask?  
I should have seen it coming  
Man, you know it's always something  
I'd give a month of Sundays to see her again  
Believe me when I tell you

I know it's hard - it's never easy  
It's like an illness in the family  
So I'm takin' the news the best that I can  
My other woman's got another man

I was the man - rich and good-lookin'  
Ask anybody in the neighborhood  
Then she cut out - now nothin's cookin'  
All of a sudden I don't look so good  
I went to have my head examined  
Doctor, what you got for depression?  
He pulled me aside and said  
"Son, you better get you another other woman"

"I know it's hard - no it ain't easy  
You got a problem in your family"  
So I'm carrying on the best that I can  
My other woman's got another man

Now every day I feel like cryin'  
It's like a part of us has gone away  
But I'll be strong - pick up the pieces  
I'll find the strength to face another day

Yes, I'm carrying on the best that I can  
My other woman's got another man
