

Never Found a Girl

Huey Lewis & The News

Ain't no love, ain't no love like my baby's love
It's like burnin' fire, oh, set up in my bones
Ain't no lonely days, ain't no lonely, lonely nights
Every little thing that she does, I know the girl's alright

'Cause I ain't never, never, found me a girl
To love me like you do, oh, no
To love me like you do

Ain't no man, ain't no man, got a little woman like me
You are every little thing one sweet girl should be
She's every poor boy's dream and every rich man's friend
But I don't need no money, honey
'Cause you were always there

'Cause I ain't never, never found me a girl
To love me like you do and that's the truth, honey
To love me like you do, oh, yeah

No, I ain't never, never found me a girl
To love me like you do, oh, no
To love me like you do
To love me like you do
Say it one more time

I ain't never, never found me a girl
To love me like you do
To love me like you do
To love me like you do
I never found a girl

I ain't never, never found me a girl
