

## Plan B

Huey Lewis & The News

Wasn't forever the word you used?  
Always together, you said we can't lose  
Picture of a minister, bells and lace  
And all of the relatives in one place  
And then right in the middle of the party  
You want to change your mind  
Well it's time for me to wake up to reality  
Plan B

I should have known better, a girl so fine  
They tell me it happens all the time  
Nothing but trouble tip to toe  
And tons of attention everywhere you go  
Well, you're the kind of girl that  
Makes a little dog break a big chain  
There's only one option that's left for me  
Plan B

I guess it was too good to b true  
All that devotion and attitude  
But you found somebody you had missed  
And that was the one thing that you can't resist  
So you tell me that you love me  
Then you kick me out in the street  
Well, it's time for me to face up to reality  
Plan B
