## **Love In Your Eyes**

## **Hugh Cornwell**

My vision's getting better now A perspective at last There's dawn upon the horizon And the sun is rising fast

I feel your presence everywhere There's magic in the air Maybe other people have your time But I don't care

'Cos when we scintillate The sparks begin to fly And then it escalates The ground goes flying by

And then I find, I find, I find I find love in your eyes

This modern world is cheap enough I won't make it cheaper still Temptation hasn't got a chance With me it's lost its thrill

Your jewel lies hidden out of reach The rest they know it's there They wish they'd hung on to their dreams Like you have it so rare

'Cos when we scintillate The sparks begin to fly And then it escalates The ground goes flying by

And then I find, I find, I find I find love in your eyes

'Cos when we scintillate The sparks begin to fly And then it escalates The ground goes flying by

And then I find, I find, I find I find love in your eyes Love in your eyes

I find, I find, I find I find love in your eyes Love in your eyes

I find, I find, I find I find love in your eyes Love in your eyes
