

Don't Be Fooled

Hugh Dillon

It's not a game I take lightly
For nothing is gained
The song it is never the same
And we could lose everything

It's the move so subtle
The light never fades
But somehow it's further away
And we can lose everything
And I remain
Far from myself
To this day
I guess that I want it this way
I wouldn't change anything
Don't be fooled
If it's the last thing you do
You best make your move
Or it's the same sad song for you
You better make your move
Or it's the same sad song for you
Well you do
You do what you do to get through
So fast that you never get fooled
Can't double back on the truth

It's not a game
I take lightly
For nothing
Is gained
The song it is never the same
And we could lose everything
It's the move so subtle
The light never fades
But somehow it's further away
And we can burn everything
Don't get fooled
If it's the last thing you do
You best make your move
Or it's the same sad song for you
You better make your move
Or it's the same sad song for you
You better make your move
Or it's the same sad song for you
