

# Ten Feet Tall

Hugh Dillon

The way she walks  
It's like she's ten feet tall  
She's got a sound  
Coming through the wall  
She's got a vibe  
She'll kick it down the hall  
She's got the whole damn thing  
Finger on the pulse  
She's got a mind  
Throw it in the air  
I've got a signal  
You know I'm already there

Don't need to bleed that star  
Just to figure it out  
Don't always need to know  
What it's all about  
Maybe break your back  
Maybe knock you out  
You know there ain't no one here baby  
But yourself

She got it all  
You know it's blowing my mind  
She's got a beat  
She's never behind  
And I believed her  
I see it in her eyes  
She had to make me laugh  
Before she made me cry  
She got a mind  
Throw it in the air  
I got a signal  
You know I'm already there
