

## Careless Love

Hugh Laurie

Love oh love  
oh careless love  
love oh love love love love  
oh careless love

You make me  
you make me weep  
you make me moan  
you make me  
you make me leave  
my happy home

Don't never  
turn a stranger  
from your door  
don't never  
don't you never never never never  
turn a stranger from your door

It may be your sister  
or your brother  
you'll never know  
don't never turn a stranger  
from your door

Careless love  
you drove me  
through the rain and snow  
careless love  
you drove me, you drove me  
through the rain and snow

You robbed me  
out of my silver  
you robbed me  
out of my gold  
I'll be damned  
if I let you  
rob me out of my soul
