

# Against The Wall

Hughes Turner Project

Say you love me, but you don't care  
Put on your makeup and you fix your hair  
You're steppin' out  
You're hitting the town  
And you made it clear  
You don't want me around

I gave you everything a man possibly could  
You say walk through fire baby, I would  
I'd move a mountain, my love is so strong  
But I get the feeling that it won't be long  
I don't wanna hear you say goodbye  
You just gotta give me one more try  
Tell me why

You wanna watch me fall  
You wanna see me crawl  
You say you want it all  
Baby you got me, you got me against the wall

I can't eat, I can't sleep at night  
Push and pull, but I can't win the fight  
Got this feeling I should let you go  
My head says yes but my heart tells me no

You got all my money you got all my time  
Take my soul, now I'm losing my mind  
What can I do baby, what can I say  
'cause I'd do anything to make you stay  
I don't know why you wanna say goodbye  
You just gotta give me one more try  
Tell me why
