

# Losing My Head

Hughes Turner Project

Six degrees of separation  
The space between us, you and me  
We live a life of desperation  
We will collide eventually

It don't bother me  
It don't mean a thing  
Just let your mind be free

I'm losing my head, I'm going insane  
I heard what you said, your voice in my brain  
I'm already gone, my eyes turnin' red  
The damage is done, I'm losing my

You give me too much information  
I'm heading for an overload  
We gotta change the situation  
We gotta take another road

Now what you say to me?  
I don't feel a thing  
Let your mind be free

I'm losing my head, I'm going insane  
I heard what you said, your voice in my brain  
I'm already gone, my eyes turnin' red  
The damage is done, I'm losing my

I'm losing my head, I'm going insane
