

Double Dip

Hum

Breathe through the top straw,
And I'll hold you between breaths.
Lean into my lungs, and cry when it hurts too much.
Water's high, the water's high...
I know, my love.
The water's high, the water's high...
I know, my love.
Breathe through the top straw,
And I'll hold you between breaths.
And lean into my lungs, and cry when it hurts too much.
The water's high, the water's high...
I know my love.
The water's high, the water's high...
I know my love.
Stand, deliver all, yeah
And all the love you give while I stand on your blue shoulders.
And scream into my lungs, yeah but first,
But first know what you've done,
What you've done, what you've done.
