

I Like It

Hum

I like it when you spread your wings
And you cover up the walls and everything.
Stealing dinosaurs and kangaroos,
I like it when you change the way you move.
I like it in the car and without my mind,
And I wish that I could be there all the time.
Climb without my shoes and digging through the trees,
I like the way you look and the way I see.
I like it when you spread your wings
And you cover up the walls and everything.
Stealing dinosaurs and kangaroos,
I like it when you change the way you change.
(If we talk right now, I've gone inside out.)
(If we talk right now, I can hear you out.)
