

## Forgive & Forget

Human Fortress

Maybe time heals my wounds  
And I'm crying deep to myself  
This feeling in my broken heart seems to die  
I've been disappointed

Tell me will I find out  
The reason I understand  
But maybe I am a gullible fool  
Who ignores each warning

I'm still trying to forgive and forget  
These endless lies can't go on - I'm still  
Trying to forgive I regret  
Mistrust will remain - I can't forget these days

Save me, I need support  
To be strong now, I don't like this game  
From now on, I know for sure that I am  
Too weak to recover
