

## Restless Souls

## Human Fortress

We're the last who left behind  
We're just out to get it right  
Just believe the prophecy  
That's our will, our destiny

Against shadows and darkness  
Salvation to find the key  
Follow stars on our holy way  
To the end on judgment day  
Curse and passion

We are - band of brothers  
Searching, all around the world  
We are restless souls  
'till the end of time

Under blue skies, oceans wide  
'round the world leaving all behind  
Find the sanctuary  
Heal our souls  
For ourselves before we fall

Against shadows and darkness  
Salvation to find the key  
Follow stars on our holy way  
To the end on judgment day  
Curse and passion

We are - band of brothers  
Searching, all around the world  
We are restless souls  
'till the end of time
