

7 Lonely Days

Human Nature

I wanna be
Just where you wanna be
I wanna be
Just where you wanna be
7 lonely nights
7 lonely days
I been thinking 'bout you girl
In just as many ways
Running out of money
Running out of time
Feeling kind of empty
Like a cheap valentine
Now I'm used to
Everything I want
But now I will give you
Everything you need
Baby I been thinking about you
7 lonely days are on my mind
Baby, I really miss you
I really miss your touch
I wanna be, just where you wanna be
I wanna be, just where you wanna be
Baby, I really miss you
I really miss your touch
Rum and cola nights
Melancholy days
Stare at my reflection
And the error of my ways
Now all the kings horses
And all of his men
Can't stop me wishing
I was holding you again
Now I know
You're everything I want
And now I wanna give you
Everything you need
7 lonely days
And lonely nights
I been missing you
I just want my baby by my side
Do you miss me too
It doesn't take a weaker man
To need someone to hold his hand
And to miss your touch
I want to be where you
Want to be I do
Want to be where you
Want to be
7 lonely days
And lonely nights
I been missing you
I just want my baby by my side
Do you miss me too
It doesn't take a weaker man
To need someone to hold his hand
And to miss your touch
