

Bring Her Back

Human Nature

Bring her back
Just Bring her back to me
Bring her back
Just bring her back to me
Another night without you
Another hour to wonder why
I care so much about you
I never meant to make you cry

Tell me why did she
Have to go and leave
Where can I find peace?
Why can't somebody

Bring her back
Just bring her back to me
So I can hold her in my arms again
Bring her back
Just bring her back to me
Bring her back into my heart again

I'll kiss your lips so tenderly
I'll be so gentle when we touch
And when I hold you close to me
