

Counting Down

Human Nature

Tell me why I'm so blue
Why I'm losing myself inside
Tel me what can I do
Never thought I'd have tears to hide
I know
I'm missing you
I know it's true

Now I'm just counting down the hours
Now I'm just counting down the tears that I cry
'Cause I always thought we'd be forever
Now I'm just counting down the days since you were here

Conversations so hard
There's not a single day that you fall from my mind
I keep the perfect facade
Nobody knows how I burn deep inside

I know
I'm missing you
I know it's true

Now I'm just counting down the hours
Now I'm just counting down the tears that I cry
'Cause I always thought we'd be forever
Now I'm just counting down the days since you were here

Now I'm just counting down the hours
Now I'm just counting down the tears that I cry
'Cause I always thought we'd be forever
Now I'm just counting down the days since you were here
