

## Life Just Gets Better

### Human Nature

I can see so clear that you need  
Time to start it all over  
In your eyes there's things telling me  
You can't take it much longer  
Don't cry, leave it all up to me  
And I - I'll be all you need, let it be

Blame it all on the way that love can fall  
Let the music take control  
Take a chance if you dare  
Ain't going nowhere  
Life just gets better  
When the writing's on the wall  
Take the rise don't take the fall  
Take a chance if you dare  
Ain't going nowhere  
Life just gets better

Baby you've been wasting your time  
But there's always tomorrow  
Don't you weigh this blame  
On your mind  
C'mon baby, just let it go  
Don't cry, leave it all up to me  
And I - I'll be all you need, let it be

So let me hold you  
And show you a better way  
Just let me open your eyes  
Know that you're gonna survive  
Baby don't cry
