

# When We Were Young

Human Nature

Yesterdays - been and gone  
When we were young  
Remember when  
We started out as friends  
We were one and the same  
Don't even think that I knew your name  
That was then  
So many things have changed  
But looking back on the days  
It's good to see that we are still the same

Sometimes I wish that innocence would never end  
Although memories will fade (no, no)  
Time will never take them away

Yesterdays have been and gone  
Summer days that seemed so long  
All the things we did  
When we were young  
We had our share of smiles and tears  
It's been the same all through the years oh yeah  
Even shared our favourite songs  
When we were young

(When we were young)  
Don't you know  
People come and go  
But sure as sun after rain  
In your heart friends will still remain  
Let me say  
If we should drift away  
And your heart feels the pain  
Let the good times bring you back again

Sometimes I wish the days we had would never end  
Although time is moving fast (so fast)  
Memories are made to last

Yesterdays have been and gone  
Summer days that seemed so long  
All the things we did  
When we were young  
We had our share of smiles and tears  
It's been the same all through the years oh yeah  
Even shared our favourite songs  
When we were young

(When we were young)  
Even on your own  
Know you'll never be alone  
The memories we made  
Time will never take them away

All the yesterdays have been and gone  
And the summer days that seemed so long  
All the things we used to do when we  
When we were young

Had our share of smiles and tears  
It's been the same all through the years oh yeah  
Even shared our favourite songs  
When we were young

Yesterdays have been and gone  
Summer days that seemed so long  
All the things we did  
When we were young  
(When we were young)  
We had our share of smiles and tears  
It's been the same all through the years oh yeah  
Even shared our favourite songs  
When we were young

Yesterday - been and gone  
Summer days  
When we were young  
We had our share of smiles and tears  
It's been the same all through the years oh yeah
