

Disease

Human Waste Project

Your sweet smile,
Is open mouth,
With jagged teeth.
I'm just a girl
Without apology, without apology
Starve yourself to nothing
Come on, cause I'll never go away, yeah
I could be
Death for you
If you believe
I'm just a girl
Without apology
To you I am disease
Starve yourself to nothing
Come on, cause I'll never go away
No, no
I wait for you to fall
So beautiful
I will be the one
Come on
You can't take this away from me, no no
Betcha can't take this one from me, come on
You can't take this away from me
Cause she will never be
The one
And I bet you thought you knew everything about me
But you don't
You don't
You don't know anything
No
So just fuck off
Whore
I wait for you to fall
So beautiful
I will be the one
Come on
You can't take this away from me, no no
Betcha can't take this one from me, come on
You can't take this away from me
Cause she will never be
THE ONE
But I will always be
One
