

# Fighting Naked

Humanwine

Step right up its your hero  
Its your friend  
It'll save until the end  
We'll weed out the foes of our master plan  
Guards grab that man  
Who stands tall in front of the people  
And says

Thieves come out  
Of this mouth  
Spreading lies

A one world plan  
Where your blood dissolves in my hands  
Encaustic sleeves  
like a leash round your  
right to abandon  
I'll haul you in tight  
And crush you will  
Make it easy to please me disease  
The wells which drink  
They smell like death

Thieves come out  
Of this mouth  
Spreading lies

Hypocritical fascist porno priest on the TV  
Selling you shit you don't need  
Bony hands greedily eating up V.D. grab bags  
"God Save this Man!"  
Who got caught on the camera with his pants down  
While we sing

Thieves come out  
Of his mouth  
Spreading lies

You're safe in my hands  
Which protect from foreign lands  
Pre-emptive Warning you daily "fear-o-Meter" is rising  
The tension is climbing  
We're in Your head  
It's the end of your worries  
Securely the Patriot Slaves  
I did say Act  
Thieves come out  
of my mouth  
spreading lies
