

Teenage anxiety

Humble Pie

And if my time would serve me well
Oh what a story I could tell
About the places that I've seen
And the people that I've been

It's tough out there
It's rough out there
I'm beginning to think I've had enough out there
It's tough out there
It's rough out there
It ain't what we been told out there

They shot my hero in the street
And as I sing the world still weeps
