

# The Light Of Love

Humble Pie

I, I love you  
And I love the sun too  
They make bright my light  
The light of love, the light of life  
I know just how good it can be.

My past leaves a trail, bitter and sweet  
Demands on my life were hard to meet  
Didn't know how or the reason for  
But when I found my love, I found much more  
I know just how good it can be.

You're aware, what I ain't got  
But what I got is yours to share.

My how it's good to see  
The little things that never used to be  
Now it's of some concern  
Like the old man say: 'If you live you learn'  
I know just how good it can be.

I, I love you  
And I love the sun too  
They, they make bright my light  
With the light of love, the light of life  
I know just how good it can be.
